NOTICE PINE LAKE WEED TREATMENT

The treatment of Pine Lake for Eurasian Milfoil is scheduled for:

Tuesday, September 18th, 2012
(weather permitting)

The chemicals will not be applied if the applicators feel conditions are unsafe, such as storms, heavy rain or high winds. We have allowed September 19th and 20th, as rain dates. If conditions still do not allow treatment, you be notified.

The recommended precautions after treatment are as follows:

NO swimming for 1 day

NO garden watering for 14 days

Should you not want this treatment, please notify the Village Hall prior to this date. Please call us even if you have a standing no spray request.

We have instituted a phone message system that enables residents to call in at any time and get an update. The message will indicate if the treatment took place as scheduled, and if not what plans have been made for the rescheduled treatment. To access this information line, dial 367-4681 and follow the instructions.

Additional lake treatment information including the WI-DNR permit is on line at www.chenequa.org
