

SOLID WASTE
NORTH AMERICA

May 14, 2010

Dear Municipal Administrators,

As many of you know, since 1983, our firm has allowed the public to dump garbage, yard waste, building materials, appliances, etc. at our facility in Hartland for a nominal fee.

Over the years, countless people have taken advantage of this service including many Public Works Departments. Times change, and we feel the liability has now become too great to offer this disposal option. Therefore, effective 7/1/2010, we will no longer allow residential and commercial public dumping.

An exception to this would be your Public Works Department. We will continue to accommodate them on an occasional basis provided the refuse is brought in with a municipal vehicle identifying your community.

We would ask your assistance in informing your residents via your newsletters and cable TV stations. Remind them that our firm has always rented disposal containers to residents and businesses for general household clean up & building material disposal and we will continue to do so.

I trust you understand the reasoning behind this business decision and we ask your support. As always, please feel free to contact me at (262) 369-3071 if you have any questions.

Respectfully,

A handwritten signature in black ink that reads "Lyle Paullin".

Lyle Paullin
