Upcoming Election: Spring Primary

**Please be sure to fill out 2020 Snow Plow Agreements and 2020 Dog License Applications.  
If you have any questions, feel free to call or email the Village.**

## SPRING PRIMARY ELECTION LOCATION, HOURS OF POLLING PLACE AND BOARD OF CANVASSERS

The polls will be open for the Spring Election to be held on February 18, 2020, from 7:00 AM to 8:00 PM. Voting will take place at the Chenequa Village Hall located at 31275 W County Road K in the Village of Chenequa. Polling place is accessible to elderly and disabled voters.

At the close of Election Day, pursuant to the provisions of Wis. Stat. §19.84, the Election Inspectors will convene as a joint meeting of the Municipal Board of Canvassers for the purpose of conducting the municipal canvass pursuant to Wis. Stat. §§7.51 and 7.53(1). This meeting will be open to the public pursuant to Wis. Stat. §§19.81-89.

If needed, the Municipal Board of Canvassers will also hold a meeting at 4:00 p.m. in the Village Office to process and count late-arriving provisional ballots (if any) that arrived in our office by mail on Friday, February 14, 2020.

### Police Safety Tip

•••

Unwanted telephone calls have become increasingly frustrating for many Americans over the last several years. Amongst these calls, many have received automated telephone calls, also known as "robo-calls". According to the communication company First Orion, robo-calls make up nearly 50% of all cellular calls today. There are several tools that can be utilized to try and limit how many robo-calls/unwanted calls one may receive.

For telephone landlines, there is a free feature known as "anonymous call rejection" that can be set to limit unwanted calls. The majority of home phone carriers will allow consumers to dial \*77 from your landline and this will screen out calls from callers who have blocked their caller identification. Many telemarketers will utilize blocked numbers when calling consumers, so this method may prove effective. For cellular phones, many companies will provide free apps or call blocking tools that can be downloaded to combat unwanted calls. An example of this is AT&T which provides their customers with a free app called "AT&T Call Protect". For both landline and cellular phones, it is best to contact your provider directly to find out what they have in place to help with unwanted calls.

The United States government does provide the National Do Not Call registry which will not stop robo-calls, but will limit unwanted calls from legitimate for-profit business. However if a consumer is signed up for this registry, political organizations, charities, and survey takers are still permitted to make unsolicited calls. To sign up, visit [DoNotCall.gov](https://www.donotcall.gov) or call 888-382-1222.

As always, do not share any of your personal information with these unsolicited calls and you always have the right to not answer or hang up any phone call.
