## Telephone Scams

Recently, a resident reported receiving a message from Amazon regarding a package they ordered: If they ordered a package from Amazon, for a total cost of \$49.99 they were to disregard the message and the package would be delivered in a timely manner. If they did not order a package they were to contact Amazon support and speak with an Amazon Support staff member. If you feel you have experienced a scam, you can report it to the **Federal Trade Commission, please visit:**

## Forestry News

If there is any Oak / Elm pruning you wish to do on your property, **please make sure it is completed by April 15<sup>th</sup>.**

This warmer weather will activate sap and bark beetles which are known to spread Oak Wilt and Dutch Elm disease. The beetles are attracted to the wound of a fresh cut tree.

A good rule of thumb is don't prune oaks and elms between April 15<sup>th</sup> and October 15<sup>th</sup>. If you must prune between these dates you must seal the wound with pruning seal immediately.
