Forestry News

If there is any Oak / Elm pruning you wish to do on your property, **please make sure it is completed by April 15th.**

The warmer weather will activate sap and bark beetles which are known to spread Oak Wilt and Dutch Elm disease. The beetles are attracted to the wound of a fresh cut tree.

A good rule of thumb is don't prune oaks and elms between April 15th and October 15th. If you must prune between these dates, you must seal the wound with pruning seal immediately.

Reminder for Everyone

There is NO ILLEGAL dumping at the Pine or Beaver Lake Boat Launches.

These locations are monitored by security cameras. Violators are subject to citation and the cost of removal of any illegal dumped items.

I am so –

Grateful and proud to have had the opportunity to serve the most kind, considerate and generous residents of the Village of Chenequa.

Thankful to our Village Board, various committees, Election Inspectors, and numerous residents for their support and commitment.

Blessed with so many fond memories. It has been my pleasure and true honor to have served the Village of Chenequa. My heart is full.
