3.12 REGULATION OF THE APPLICATION AND USE OF FERTILIZERS. (added 12/10/07)

(1) **PURPOSE AND INTENT.** The Board of Trustees finds that the Village's lakes and streams are a natural asset which enhance the environmental, recreational, cultural and economic resources of the area and contribute to the general health and welfare of the public. The purpose of this ordinance is to set forth regulations which will enable the Village to protect its water resources for the health, safety and welfare of the public without detracting from the natural beauty of homeowner's lawns and gardens. The Board of Trustees further finds that regulating the amount of nutrients and contaminants contained in fertilizer, including phosphorus, that enter the bodies of water as a result of runoff from lawns and turf will aid in the improvement and maintenance of lake water quality.

(2) **APPLICABILITY.** This ordinance applies in all areas of the Village.

(3) **DEFINITIONS.**

(a) *Fertilizer* has the meaning set forth in §94.64(1)(e), Wis. Stats.

(d) No person shall apply any fertilizer to any impervious surface. If such application occurs, the fertilizer must be immediately contained and either legally applied to turf or placed in an appropriate container.

(e) No person shall apply any fertilizer to any established natural buffer zones.

(f) No person shall apply any fertilizer within 20 feet of any wetland, pond, shoreline, or ordinary high mark of any lake or river as established by the Wisconsin Department of Natural Resources.

SECTION 2. SEVERABILITY. If any provision of this ordinance is invalid or unconstitutional, or if the application of this ordinance to any person or circumstances is invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the other provisions or applications of this ordinance which can be given effect without the invalid or unconstitutional provision or application.
